update #06

my nucleus

19/01/2019

response/space - the eight in the square

at the center of my visual unfolding is the individual, his or her self-conception of the interior and exterior world, existence with its boundaries and contradictions.

my mode of expression are images, they constitute my language - emotional, densified, abstract, mysterious, narrative, painterly, multidimensional and aesthetic.

the basis of content and form is the number eight and the square.
